The evaluator is encouraged to add comments and observations which will aide in making decisions about the site.

1. Direct evidence of:  
 Primary contact recreation activities?   X   Yes        No  
 Secondary contact recreation activities?   X   Yes        No

If people are observed recreating in the water, or if direct evidence exists of primary and/or secondary contact recreation, then primary and/or secondary contact recreation are considered existing uses. Types of direct evidence might include rope swings, campfire rings, boat ramps or other constructed or evident points of access.

COMMENTS: Boat ramp and dock, camping and picnic areas, grills, shelter house and playground area. Dredging rig operating in the lake.

2. Sufficient water to support primary contact recreation?   X   Yes        No

An average depth of at least 0.5 meters or a maximum depth of at least 1.0 meter at base flow conditions is considered minimal for primary contact recreation. Base flow, as defined in K.A.R. 28-16-28b(f), means that portion of a stream's flow contributed by sources of water other than precipitation runoff. This refers to a fair weather flow sustained primarily by springs or groundwater seepage, wastewater discharges, irrigation return flows, releases from reservoirs, or some combination of these factors.

COMMENTS: Maximum depth > 1.0 meter

Primary Contact recreation use exists  
 Secondary Contact recreation use exists

<sup>1</sup> Comments: \_\_\_\_\_

<sup>2</sup> E = expected aquatic life use water.  
S = special aquatic life use water  
R = restricted aquatic life use water

<sup>3</sup> P means primary contact recreation.

<sup>4</sup> Secondary contact recreation was not delineated in the 1999 Register. Per 1999 Kansas Surface Water Quality Standards (KSWQS), all classified waters where no UAA had been completed were designated for secondary contact recreational use by default.

X = referenced stream segment is designated for the indicated beneficial use.

O = referenced stream segment does not support the indicated beneficial use.
